

LED BLINKING.

Name - C. Karan Wadhwa

USN - ~~1~~ 2BM18C504

Date - 16/9/20

Aim: Turn on the LED on for a second, then off for a second, repeated by.

Hardware req

- Arduino Board
- LED
- USB CABLE
- Wires.

CODE :

```
void setup()
{
  pinMode (13, OUTPUT);
}

void loop()
{
  digitalWrite (13, HIGH);
  delay (1000); // Wait for 1000 milliseconds
  digitalWrite (13, LOW);
  delay (1000); // Wait for 1000 milliseconds
}
```
